Report of feedback from students on curriculum from 2012 - 2013 to 2016 – 2017

The feedback committee of our college is actively functioning. It has conducted two types of feedback every year. One of them is curriculum and other is on teachers' performance. The feedback form on curriculum includes various parameters. The students are required to rate the courses on the attributes by using tick marks. The parameters include depth of course content including project work, extent of coverage of course, applicability/ relevance to real life situations, learning values, clarity and relevance of textual and reading material, relevance of additional source material and Overall rating. The attributes are very good (A), good (B), satisfactory (C), and unsatisfactory (D). The analysis of feedback in tabular form is as follows:
